AGENDA

1. ATM research profile
2. PhD program revision

1. ATM research profile

For accreditations purposes and in order to increase its impact on businesses, ICN's research identity needs to be clearly defined. In line with ATM pedagogy, ICN's research profile will be ATM. Thus, a task force will be put in place in order to determine what ATM research is.

2. PhD program revision

ICN's PhD program has grown to be more visible these past years, thanks to Elisabeth's PAULET's work. The program is currently being revised in order to fit with the higher required level it aims to reach. Documents on PhD governance, selection criteria, admissions timeline and equivalencies were discussed during this meeting in order to have them ready for the upcoming cohort.

Next RMC meeting
