
Application Form
Seed Funding Programme

(23-24 second Seed Funding call)

Name(s) of the applicant(s)¹: _____

Title of the project: _____

Submission date: _____

Project Description

Describe your research area and pose a specific, relevant research question. Clearly articulate the objectives of your research. Discuss gaps in the existing literature and explain why your research is essential. Detail the anticipated contributions to both theoretical knowledge and practical applications. Reference the main sources and frameworks that underpin your study, demonstrating its foundation in established research (max. 1,000 words).

[Insert your text here]

Relevance

Briefly introduce the research project and its relevance to ATM research undertakings and current business concerns (max. 250 words).

[Insert your text here]

Methodology

Describe the methodology you will use in the research, explaining how it supports the project's objectives. (max. 200 words)

[Insert your text here]

¹ If there are multiple applicants, please list the names of the project team members and their affiliations, both internal and external to ICN, at the end of this application.

Expected Outcomes

Detail the expected research outcomes and their impact on the academic and business sectors. Include your plan for outputs, such as articles, case studies, conferences and presentations. Specify the targeted journals. Describe how you plan to share your findings beyond academia. This information will show how your project aligns with our funding goals and its potential for wider impact (max. 250 words).

[Insert your text here]

Budget and Resources

Submit a comprehensive budget and a detailed list of resources necessary for completing the project. Your budget submission should directly connect your research plan to the resources you are requesting and clearly indicate how you intend to allocate the seed funding across various project components. This detailed financial plan will aid in assessing the project's viability and alignment with funding objectives. Be as precise as possible in justifying the need for financial support.

[Insert your text here]

Timeline

Include a realistic timeline for the project's milestones and completion.
